

Tea Mix

Fresh herbs have become very fashionable. They take a great part in healthy diets and back to nature trends. Earlier generations used many prescriptions made of fresh herbs which were normally collected in the wild. They knew everything about the correct use of fresh herbs for culinary and medicinal purposes.

Today's consumer doesn't collect wild herbs and possesses no knowledge of their use. Based on our customers' experience and our own expertise we recommend selling potted herbs grouped under joint theme or usage. Herbal themes programs proved to be the most effective way to promote the sales of fresh herbs.

We present various examples of combinations and themes for your choice. Special attention has been put on pointing out plants with high culinary merits and ornamental garden performance. You will be amazed to see how easy this perception goes right from start.

Tea Mix

A. Salvia off. 'Icterina' (Bicolor) B. Salvia off. 'Purpurascens' C. Salvia off. 'Tricolor'
